

## Letter Opener OM 606

### Mailing Solutions

#### Advanced Mail-Opening Technology

The OM 606 is an advanced mail-opening machine capable of processing up to 40,000 envelopes per hour, featuring a robust milling cutter with eight adjustable cut-depth positions to ensure content integrity. It includes a color touchscreen control panel with multi-language support, comprehensive job control, and performance details. The enhanced mixed-mail feeder accommodates various envelope types and sizes, while optional add-ons like a high-speed inkjet printer, sorter, and statistics report printer enhance functionality. The machine is ideal for high-volume operations such as claims processing, remittance, and vote-by-mail, offering configurable, efficient, streamlined, and precise mail handling to boost productivity and accuracy.

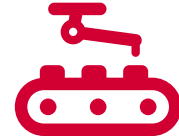

#### Flexible Configuration

The OM 606 allows businesses to adapt to various mail-processing needs with adjustable cut depths, customizable job settings, and optional add-ons, providing a tailored solution that meets operational demands.

#### Efficiency & Productivity

Capable of processing up to 40,000 envelopes per hour, the machine significantly reduces the time required for high-volume mail opening. Automated sorting and built-in performance tracking eliminate manual tasks, ensuring effective resource use and minimizing downtime.

#### Streamlined Operations

The user-friendly touch-screen interface, integrated mail tray holders, and optional Ethernet connectivity simplify mail handling, reduce errors, and enable remote data collection, making mailroom management more agile and responsive.

### FPI Folder Inserter

#### Advanced technology for enhanced automation

Securely automate and customize your jobs with the proven technology of the FPI production folder inserters. A straight paper path design provides maximum efficiency with media constantly flowing in one direction. This gives the user exceptional processing capabilities, even when feeding multiple sheets from the same tray.

# Letter Opener OM 606

## Standard Features

- Color touchscreen user interface
- Enhanced mixed-mail feeder design
- Automatic envelope thickness adjustment
- Milling cutter
- Adjustable cutting depth
- No-cut setting
- Batching items into pre-selected lot quantities
- Mail tray supports
- Extra large chip bin

## Options

- Statistics Report Printer
- High-Speed Inkjet Printer (Time & Date, Sequential Numbering, ID Tags, IMB Barcodes)
- 90° Powered Conveyor or Sort Bin
- Sorter

## Specifications

Length	48 in (1219.2 mm)
Depth	20.25 in (514.35 mm)
Height	58.75 in (1492.25 mm)
Weight	235 lbs (106.6 kg) stand & waste bin included
Speed	Up to 40,000 envelopes per hour
Envelope Sizes & Types	Lengths up to 13.5 in (342.9 mm), including overnight packs. Sort capabilities measured on the first 11 in (279.4 mm) of envelope.
Thickness	Up to 0.50 in (12.7 mm)
Depth of cut	From 0.01" to 0.125" (.3mm to 3.2mm)
Power	115 VAC, 60Hz, 5.0A
BTU	1964 BTU/h (115 VAC)
